

The 14 Days of Christmas Vacation Homework

NOTE: This is totally just for Extra Credit and Fun ☺

Date	Question
December 20	There are 5 more shopping days until Christmas. If you shopped 3 hours Monday and 6 hours Tuesday, Wednesday and Thursday, what is the sum?
December 21	Santa's elves are working hard! Ben made 96 toys today. Bob made 47 more toys. What is the sum? How many more did Bob make?
December 22	Look for Christmas cards in the mail today. Add the value of all the stamps. Find the total.
December 23	It's almost Christmas Eve! Make sure Santa can find you. Check the numbers on your street address and zip code. Add all the digits to find the sum.
December 24	Christmas Eve is today! If each of Santa's 8 reindeer has 2 antlers, what is the sum of the antlers and hooves on Santa's team?
December 25	Christmas Day! Estimate who has the widest smile in your family. Measure to find out. You can use a string as a tool then a ruler to compare.
December 26	Find the Sunday comics. Count the number of animals in the pictures. Count the children. Which has more?
December 27	The presents have been played with. Find the fact families using the numbers 6,7, 42 and also for 7,8,56.
December 28	Call a friend. Then use the letters and numbers on your phone to find the value of these words: smile, noel, holly, elf, Santa, and snow.
December 29	Help with groceries today. There are brown eggs and white eggs. Show all the ways to make a dozen eggs using both combinations of colors. EX: 6 white + 6 brown
December 30	Estimate and try to spend a half hour cleaning your room. Record the time you start and stop. What was your actual time? How many seconds did you spend?
December 31	New Year's Eve! Resolve to spend some time learning basic math facts. Use an old calendar to make up some addition, subtraction, and multiplication facts.
January 1	New Year's Day! Use an old 2007 calendar. Count backwards 6 months and 3 days. What day is it? Make us some more problems to do.
January 2	Add the dates on the calendar horizontally and vertically. Do this for more than one month. What did you find?
